- A. Procedure for Entering
- B. Procedures for Ponies
- C. Score Sheet

Annex A. Procedures for Entering

Each team must submit a Tournament Entry Form to FIP Headquarters and the Organizing Committee 30 days prior to the first tournament game. The form must be completed and signed by the National Polo Association President. The entry form must be submitted 30 days prior to the first tournament game in which a player will play in the Subzone, Zone, or World Championship. A player can be submitted after the 30 day deadline but FIP does not commit to approving the player

To participate Attachments 1 - 5 must be completed as required.

A. Team Entry Form - Attachment 1

Teams must pay an entry fee to FIP. These fees must be wired and received by the FIP bank account 30 days before the start of the tournament. In addition, each participating country's annual FIP membership fees must be paid in full prior to competing in a Tournament.

Fee schedule:

- **World Championship 14 Goal Tournament.**
- **Zone Play-off Tournament.**
- **Sub Zone Play-off tournament.**

Fees will be determined by the Executive Committee at an appropriate time, e.g. when the host venue is selected.

Eligibility of Players.

- All players must be a citizen and hold a current valid passport from the country that they will represent.
- They must be members of good standing of their National Polo Association and have been handicapped by their Association for the year of the tournament and the previous two calendar years.
- No player will have represented another country in any sport in the last three (3) years (See Olympic Rule 46 at Note 1). This condition can be waived by the Executive Committee for Tournaments endorsed by FIP that, like the Super Nations Cup or The Snow Polo World Championship, are Invitational Tournaments.

- A team can nominate and list up to 10 players on the Tournament Entry form. Listed must be the player's complete name, their handicap for the current year plus the two previous years. The handicap of players who have been rated within the three year period by the Hurlingham Polo Association, Argentine Polo Association, the United States Polo Association or any other National Polo Association must also be listed on the form.
- Current handicap ratings for each player must be no greater than plus five (5) and no less than plus one (1) for C countries and no less than plus two (2) for A and B countries. The minimum handicap requirement may be waived by the Executive Committee in certain circumstances including when a sponsor is involved.
- A player's handicap will be recognized by FIP on the date it becomes effective. However, a team already registered for a FIP event prior to a handicap change to one or more members of a registered team may still participate in that event though the handicap change puts the team above or below the limit for that event, provided that the first game of that event is played after the handicap change effective date within 45 days of the announcement date (not effective date) of that handicap change. The announcement date is the date a final handicap list is published by an Association not subject to change. If the handicap change puts them below the lower limit for the event the teams must assume the lower limit. If the handicap change puts the team above the upper limit they will be allowed to participate but must assume the higher handicap and give appropriate goals.
- If it is announced officially by an Association that the handicap of any player is due to change when that player has already been registered for a FIP event, the FIP will:
 - Recognize that player's new handicap on the date it becomes effective,
 - Allow that player to participate in the event off his new handicap, provided that the first game of the event is played within 45 days of the official announcement.
- If the handicap change puts the team below the lower limit for

the event the team must assume the lower limit. If the handicap change puts the team above the upper limit the team must assume the higher handicap and give the appropriate goals.

- FIP prefers that players whose handicaps have been reduced during the three-year period are not be submitted to play in FIP World Championships. However, if a team wishes to have a player whose handicap has been reduced in the last three years, special permission must be requested in writing from the FIP Executive Committee at least 90 days in advance. FIP does not commit to give approval to a player in less than 90 days before a game.
- The FIP Executive Committee will review player handicaps and assign an International Handicap that will be used for the tournament. A player handicapped in more than one country will be assigned the highest current handicap that he holds, either in his own country, or where he plays regularly, or with the HPA, AAP or USPA if he has received a handicap from one of these three associations and if he plays regularly in that country. Therefore, the HPA, AAP or USPA handicap will usually prevail over other Associations.
- Following qualification from a zone play off, it is possible that the handicaps of a player or players will have been raised. If this results in the handicap of the team being above 14 goals or any individual player above 5 goals the team may enter a FIP World Championship with the new higher handicaps, but only if at least three (3) players who played on the team in any game or part of a game in the Zone Play-offs continue to play together. If more than one player is replaced, the team must qualify in all respects.
- If one player is replaced:
 - and it is a player raised to 6 goals, the replacement must be 5 goals or less.
 - and it is a player whose raised handicap would cause the team to exceed 14 goals, the replacement must be the same handicap as the player was before he was raised.

B. Players Biography Form - Attachment 2

All players must submit a Player Biography form (**Attachment 2**) to FIP and the Organizing Committee, which will be used as publicity associated with the Tournament. Information should include age, number of years playing polo, the city and country where the player is from, etc.

C. Hold Harmless and Waiver of Intellectual Property Rights Worldwide – Attachment 3

All players participating in the Tournament must sign the FIP “Hold Harmless and Waiver of Intellectual Property Rights Worldwide” (**Attachment 3**). A player must sign this form before he can participate in any game or event in the tournament. The original must be sent to the Organizing Committee and a copy sent to the FIP Headquarters.

D. Acknowledgment and Agreement Form for Dope Testing of Players - Attachment 4

All players listed on the Tournament Entry Form will be subject to testing (urine analysis, blood tests and other authorized techniques for detecting prohibited substances) and required to sign the Acknowledgment and Agreement Form (**Attachment 4**).

E. Whereabouts Form - Attachment 5

The Player may be tested before and during competition, either at the game or out of competition either by FIP or the World Anti-Doping Agency (WADA). Consequently, the Whereabouts Form (**Attachment 5**) must be completed so that there is an accurate record of where all players are living or staying,

F. WADA Athletes Guide - Attachment 6

It is highly recommend that players read the “WADA Athletes Guide” (**Attachment 6**).

The Horse Master in conjunction with the Tournament Veterinary can withdraw a horse for veterinary reasons.

- If it is felt by any tournament official that a player is hurting the horse with spurs he will not be allowed to use spurs.

I. Welfare on Ponies

The Tournament Director and Tournament Committee are determined that any abuse of ponies whether on the ground or off, for instance when turned out, will not be tolerated.

J. Inspection of Ponies

With the approval of the Tournament Director, at any time a veterinary and/or a member of the Tournament Committee may inspect any pony whether on a polo ground, in a yard or turned out. If the veterinary or Tournament Committee member is refused permission for the inspection, which may be carried out on short notice, they will be reported to the Tournament Director pursuant to Regulation 6.

- **Referral to Tournament Committee:** The Horse Master may refer any team or player direct to the tournament Committee for a disciplinary hearing.
- **Complaints:** If a complaint is received, whether from the general public, a veterinarian, a Team official, an officer of any other horse welfare body or from the Horse Master, a report form should be completed and sent to the Tournament Director and Tournament Committee. The Tournament Director will liaise with the team concerned as to the action to be taken; if it is necessary for an inspection to be made with a veterinary surgeon his cost will be borne by the team concerned. The Disciplinary Committee is obliged to hold a hearing, if they receive a report from a veterinary surgeon member of the RCVS concerning abuse or cruelty to any pony. A report of that hearing must be sent to the tournament Director.

K. Rules

The Rules that affect the welfare of ponies must be adhered to by members and enforced by clubs and umpires.

L. Pony 'Put Down'

In the event of it appearing desirable for a pony to be put down for humane reasons, such reasonable efforts as the circumstances permit should be made to contact the owner for his decision. Should the owner not be so contactable, the owner's representative or the person borrowing or renting the pony should take responsibility for authorizing the pony to be put down, if he is satisfied that the horse is in extremis i.e. that it cannot be moved without an unacceptable degree of discomfort and where there is no foreseeable prospect of the pony recovering from its injuries. It is suggested that chemical euthanasia may well be used in the event of a pony having to be put down in front of the public; in that case, the carcass will have to be destroyed.
